Telegraphic Address.....

20 JUN 1932

To The Secretary to Government,

Revenue Department, M a d r a s.

Through,

The Secretary to the Commissioners,
Land Revenue & Settlement, Madras.

Ref C. *No.* 2940/32 B-4, *dated* 16th June 1932

Sir, Buildings-Improvements-antimalarial operations-Revenue officials quarters at Siruguppa-estimate-submitted.

ENCLOSURES:

Plan Estimate

SPARE COPIES.....

I have obtained from the Executive Engineer Bellary, plans and estimate amounting to Rs 8450/- for improvements to the Revenue Officials' quarters at Siruguppa. The estimate provides for the following operations, some of which are antimalarial.

I. (1) Providing G.I. fly proof mesh to all windows of Block No: I Tahsildars and Sub Magistrate's quarters.

(2) Providing G.I. fly proof spring shutters to the front and rear doors of quarters in Block No: I.

(3) Providing copper fly proof mesh to the open court-yard inside in Block No: I.

(4) Providing Asbestos sheeting sun shade to all front windows of all quarters to keep off sun and rain.

(5) Providing concrete flooring 4" thick rendered smooth with 20 lbs. of cement to all open Courtyards in all quarters of Blocks I & III.

(6) Providing a new well 6'-0" Dr. with necessary steining, platform, pulley arrangements etc., complete.

II. (1) Providing fly-proof wire netting to all windows in the clerks and peons quarters Block 2 to 5.

(2) Providing copper fly-proof mesh to the open yard in the clerks quarters Blocks 2 and 3,

(3) Providing automatic fly-proof spring shutters to all main doors of all quarters in all the blocks.

2. I have, in my letter Ref C. 3473/31-B5 dated 13-8-1931 to the Secretary, to Government, Local Self Government Department (copy enclosed) pointed out that Govern ment are spending Rs 854/- a month in malarial allowances to their officers at Siruguppa, which represents the interest on 2 lakhs of rupees. I have also, in my letter D.Dis.C. 4503/31 dated 1-9-31 to the Board in reply to its Ref C. 5771/31-1 dated 24-8-31, observed that the officials at Siruguppa live in Government quarters newly constructed by the P.W.D. but not provided with protection against mosquitoes and recommended that the doors and windows of these quarters be wired and the allowances then withdrawn altogether. In this connection I invite your attention to para 4 of G.O. No: Ms.192, Finance, dated 4-4-32 wherein Government have approved the Board's proposal that the special pay drawn by officers at Siruguppa may be withdrawn, but that " until complete antimalarial operations are taken" the special pay should be continued with the 10 % reduction. An estimate for Rs 12,430 for improvements to the Bagavadi channel as one of the antimalarial measures was approved by Government in G.O. No: Ms. 715, P.H. dated 20-4-31 and the work is in progress. An estimate for Rs 6175/- for filling up pits and depression in the neighbourhood of the new colony for Government servants at Siruguppa as one of anti-malarial measures was also submitted to Government through the Board in this Office Ref.C. No: 2298/32 B-5 dated 11-5-31 and sanction is awaited.

3. The improvements to Governments officials quarters provided for in the estimate now submitted are necessary both in the interests of the health of the Government servants concerned and of eventual economy and I request that administrative approval be accorded and funds provided for the execution of the work as early as possible.

R Gallett

For Collector.

K.H. 17/6

Copy of letter No: Ref C. 3473/31 B-5 dated 13-8-1931 from the Collector of Bellary to the Secretary to Government, Local Self Government Department, Madras.

Anti-malarial operations-Siruguppa taluk-Bellary District.

While enclosing proceedings on the subject of anti-malarial operations in Siruguppa and Desanur I urge Government not to drop them on financial considerations. The expense is small, the danger great. The recent census shows a drop in the population of Siruguppa from 6129 to 5773, of Desanur from 1460 to 1043. There are already not enough of labourers to till the rich lands of Desanur. Human life and health cannot be weighed against money, but even from the economic point of view it is bad -- finance to allow the best land in this district to go out of cultivation. Even from the narrowest financial standpoint the investment of a few thousands, if it removes or reduces malaria, will pay the Government handsomely. They are spending Rs 854/- a month in malaria allowances to their officers at Siruguppa. I trust the Government will reconsider any orders they may have passed postponing expenditure on antimalarial measures in Siruguppa and Desanur and make provision in next year's budget.

ENCLOSURES.....

COPIES..... 1 53 Supra

Buildings - Government - Bellary - Improvements Anti-malarial operations - Revenue Officials' quarters at Sirugappa.

Ref:- Board's Endt. No. E. 3447/32-1 dated 24th June 1932.

A sum of Rs. 50,000/- only has been allotted in the current year's budget for minor works under 41. a. Civil Works - Provincial - Transferred - F. General Administration, the head to which the cost of improvements to the building referred to above is debitable. Out of this amount, a sum of Rs. 10,400/- is required for works which are already in progress, and Rs.19,300/ is intended for new works specified in the ~~application~~ appendix to the Provincial Civil Works Budget. A sum of Rs.5,000/- has been set apart for works relating to the Chief Secretariat. The balance amounts to Rs. 15,300/- and has to be made to suffice for all other minor works under the head in the Department for the whole year.

2. It is too early now to say whether there will be any savings in the above allotment, and if so, whether it will be sufficient to meet the above demand. If the work is considered to be an urgent one, Government may be addressed to increase the allotment under the head.

3. The enclosures received with the Board's Endorse-

endorsement are returned herewith.

RESOLUTION. Mis. No. 2721 dated 13-9- 1932

H 1-24

The Collr. has submitted pl and estimates amounting to Rs. 8,450, for improvements to the Revenue officials' quarters at Siruguppa. The estimate pro- vides, among other works, for certain anti malarial measures such as fly-pr wire netting to all the windows and spring shutters to all the main doors of the quarters. The Board considers that malar cannot be prevented by keeping mosquitos of houses since they have numerous other opportunities of biting and that mosquito cannot be excluded from houses by fly-proo openings and spring doors. These devices are useless if not worked with intelligenc by the occupants and this cannot be provig

The submitting of these estimate is presumably in pursuance of the views epressed by the Collr. in the last sentence of his D.Dis. C. 4603/31. A.4, dated 1.9.31. The Bd. as at present constituted is unable to accept the view that the mere sealing of the doors & windows of houses in

June 13 1932

69

by estimate.

2. The Board is in favour of measures, on the other hand, to get rid of mosquitos which is the only real prevention of malaria, unless the occupants are sensible and keen enough to protect themselves. It is therefore unable to accept the present estimate as far as it is antimalarial but if there is more out-door work to do, against mosquitos, it would urge it strongly on Govt.

(70)

10-9-32 10/9/32 10-9-32

Hiregappa will make that locality sufficiently healthy to justify the proposal to withdraw the special allowance; and it is not convinced - even so far as indoor precautions go - of the efficacy of the limited measures included in the present estimate. The Bd. considers that the carrying out of all necessary out-door precautions is of much greater importance, and it is prepared to urge upon Govt. the necessity for the immediate operation of any such measures that are put forward.

2) With these instructions, the Bd. returns the estimate to the Collr.

MS 11.7.32

5

Ref: Secty's queries at p 4 above.

Portion marked A.

In connection with the reduction in
Md pay paid in cantonment areas the
Coll[r] reported that for wives Rs
Rs 1740 a year in allowance. If
of anti-malarial measures are take
Revenue Secty thinks that the amount
such allowances comes to Rs 85 (X)
a month

The Coll[r] may perhaps be asked to explain
the discrepancy.

Portion marked B

The Coll[r] in regard to [illegible]

The improvements include some
which are of anti-malarial
nature. The quarters consist of
I blocks. Officers of other departments
(e.g. Supdt of Police, Salt Dept)
are also allotted
quarters therein.

Note (2) to para 94 of the D.W.D code
relates to the construction & repairs
buildings occupied by officers of
the department. responsible for the carrying out
of the repairs

(V) 25-10-31
Reminder sent

(X) So far as the Revenue Dept is concerned the allowance comes to only about Rs 330 a month according to the latest nominal roll statement. Evidently the discrepancy is due to the allowances granted to the anti-malarial staff of all the depts. At any rate it is not known how the figure Rs 1740 a year was arrived at. The Collr may be asked to explain.

(A) 14732 Gist omitted, total figures for all officers whose ars. are in the estimates.

A. Hall 14.7.32.

if it is one of the occupants and if not the Secretary occupying the major portion of the building.

In applying this principle in the present case, the Collr has submitted estimates for the quarters of the Revenue Officers which include offices of the other departments. It will also be observed from the Estimates at H.S. 9 of that the rent of ~~each~~ the quarters will be increased after the improvements are completed.

Seen
A.H.M.

The fairness of this, where 10% maximum already applies, is a matter for consideration.

Orders are requested whether the Govt's proposals regarding improvements to the Revenue Officials quarters at Srinagar may be recommended to Govt for sanction for the provision of the necessary funds (Rs 8450) in the budget estimates for the current year under "41 Civil Works - Provincial - Transferred - Govt administration"

30-8-32

31-8-32

S.

Rect marked (R)

(1) foot of p. 3 above: the ref. should have been marked — an elementary part of office's job.

(2) para. 2 of Bolton's letter at p. 2 C.F. — "complete cantonment operations": I see no note there, or have, as to whether the Rs. 6175 estimate has gone through. This information is obviously

(P.T.O)

needed before we can say if protection is so advanced that we can take up the idea of abolishing allowances.

I want, in fact, a good deal more information in the section. There notes are a series of queries by Secy. of automatic replies: it's surely obvious that before we can propose these estimates as an urgent ospec. case, we must see if we can carry out B.'s undertaking that all 'ees can go when the operations are complete - & also that we must put up complete figures to justify the estimates. Use more sense - I'm not going to go on doing E section's work for it.

A.M.
1.9.32.

S

To I.A.

The following revised note is submitted.

2. In connection with the reduction of expenditure due to financial stringency by cutting down the list of unhealthy localities, the Collr. of Bellary reported that the officers at Siruguppa live in newly constructed Govt. quarters and that the best economy would be ~~xxxix~~ ~~xxxxxxx~~ anti-malarial expenditure. He considered that if and when the doors and windows of the Govt. quarters are wired, the special pay drawn by the officers at Siruguppa might be withdrawn altogether. The Board recommended that until such 'complete antimalarial' ~~xxxxxxxxx~~ measures are taken, the allowances should be continued with the 10 per cent deduction. Govt. appd. the Board's recommendation.

3. The following anti-malarial measures have so far been taken:-

It is reported that an estimate for Rs. 12,430 for improvements to the Bagavadi channel which passes through the town of Siruguppa was sanctioned by Govt. and the work is in progress. The Collr. also reported that the malarial mosquito had found breeding places in pits and depressions in the neighbourhood of the new colony for Govt. servants at Siruguppa and that the sullage water was overflowing from sullage pits and stagnating in the vicinity of the houses in the colony. For this purpose, an estimate for Rs. 6,175 for filling up pits and depressions in the neighbourhood of the colony and for the the construction of cross masonry drains with soak pits was submitted to Govt. in June last. The source from which the expendr should be met was also indicated to Govt. The orders of Govt. are awaited.

The Collr. now submits estimates for Rs. 8,450 for certain improvements to the Revenue officials quarters at Siruguppa; some of them are of antimalarial in nature. The details of the improve-

improvements are given by the Collr. - please see pages 1-2 c.f. The estimate provides among other things flyproof wirenetting to all the windows and spring shutters to all main doors of all quarters in all the blocks. This work is reported to be necessary both in the interests of the health of the Govt. servants occupying the quarters and of eventual economy. It is presumed that the antimalarial measures will be complete when all the improvements referred to above have been finally carried out. The question for consideration is whether the ~~malarial~~ special allowances can then be withdrawn as suggested by the Collr. It seems that some time should elapse before the effects of the improvements can be seen. The Board may perhaps suggest that the question of withdrawing the allowances can be taken up for consideration one year after ~~xxxxxxxxxxxxxxxx~~ all the improvements referred to have been carried out.

The Collr. at first reported that Govt. are spending Rs. 854 a month in malarial allowances to their officers at Siruguppa. He now states that the correct total of the allowances granted to ~~each of the~~ officers whose quarters are included in the estimates is Rs. 516 a month. The balance presumably represents the allowances granted to officers of other departments stationed in Siruguppa.

It is reported that the whole amount of the estimate for the improvements to the Revenue officials quarters (Rs. 8,450) will increase the capital cost of the buildings. The rent of each of the quarters in the several blocks will be increased after the improvements are carried out as shown in cols. 14 and 15 of the statements at pages 5-9 c.f. Under the rules, the several occupants will have to pay a rent not exceeding 10% of their monthly emoluments. The levy of additional rent in excess of this limit on account of the present improvements may not be fair.

The work is a minor work. There is no budget

provision for it in the current year. The C.E. who was consulted states that there is no likelihood of any savings under " 41. Civil works- Pro- Transferred- Gl.Administration" and that if the work is considered urgent, Govt. may be addressed for sanctioning additional allotment during the current year under the above head. As it is reported that the improvements i question are necessary in the interests of the health of the Govt. servants occupying the quarters, the work may be regarded as urgent.

As the improvements go to increase the capital cost of the building by Rs. 8,450 the sanction of Govt is necessary for according administrative approval under para 421 of the P.W.D. code.

For orders whether Govt. may be addressed t accord administrative approval to the improvements in question and whether they may be requested to sanctio an additional allotment of Rs. 8,450 under " 41- Civil works- Pro.- Transferred- Gl. Admn."

S. The last sentence of the 4th. at (D) asks us to report when special pay may be stopped. I don't think we can go on the assumption that that stage is reached as soon as the various sums are spent – and even if we did, the notes above show that one important operation hasn't yet been sanctioned. I suggest trying to get money for the present estimates as a spec. urgent case: may reasonably take the line that Bd. is not prepared to hold that the improvement.

until all the structure are completed & have been on trial for, say, a couple of years. He may point out the obvious fact that delay in making the houses rent-proof simply means a corresponding delay in abolishing the allowance.

Office refers to the question of rent - p. 1 above - & referred to it as p. 6 above. I see (e) at p. 5 C. F. that Tahsildar's rent is to be Rs. 33, and R. I's Rs. 15. I assume that 10% maximum is an invariable rule - pl. verify.

Refer last sentence of Secty's note above under FR 45 A IV (6) (as amended by 13th list of Corrections) Rs. 33 FR dt. 1/9/32 when first supplied with office order allotting residence he has to pay rent for the residence, such rent being the Standard rent or 10 per cent of his monthly emoluments whichever is the less. In the case of Junior Officers

5

The Local Govt may however direct cases
in excess of the above limits in
the other cases enumerated in clause (1)
under FR 45A. IV. Even in the present
case they are not applicable
We can not levy more than 10% of their pay
in these cases.

Ref.

You can't prevent malaria by keeping mosquitos out of houses, since they have lots of other opportunities of biting, and you can't exclude mosquitos from houses by fly proof openings & spring doors. These devices are useless if not worked with intelligence by the occupants, & their control is provided by estimate.

I am all in favour of measures, on the other hand, to get rid of mosquitos, which is the only real prevention of malaria — unless people are sensible & keen enough & protect themselves (which they can easily do without wire netting & spring doors by protecting exposed parts of their persons)

As far as the estimate is antimalarial I am not much in favour of it, but if there is more out-door work & do against mosquitos we shd urge it forcibly

9 - SEP 1932

In any case we could not agree to stoppage of allowances until malaria was defeated, even if fly proof netting was provided.
